Environmental Regulations

01/01/2026

To whom it may concern,

I can confirm that Harte Peat Limited extracts peat/purchases peat for use in its Casing Soils, Professional Horticultural Growing media from legally sourced peat bogs in Ireland and Northern Ireland.

We do not use peat from any source which has been designated an NHA (National Heritage Area) or SAC (Special Area of Conservation). Harte Peat Ltd only extracts peat/purchases from bogs that are compliant with planning and environmental legislation.

Harte Peat is a member of Growing Media Ireland (GMI) and affiliated member Growing Media Europe (GME) and subscribes to the principles of both organizations in the appropriate use of peat, the inclusion, where possible of alternate growing media, and the 'Wise Use of Peat' principles.

As one of the leading peat producers in Ireland and in line with its social responsibility, Harte Peat Limited has provided significant acres of peat bog for preservation.

I trust this information is of assistance, should you require additional information or clarification please feel free to contact me.

Yours Sincerely,

Aidan O'Harte
Managing Director
Harte Peat Ltd.
